#### ***Market Timing Indicators of Tom DeMark***

Tim read Classics at Hull University, and has 18 years' experience of trading and sales in London markets, including spells with UBS, State Street, Calyon and WestLB. His trading roles have included proprietary trading in currency options and medium term foreign exchange; his advisory roles have been across major asset classes, to central banks, asset managers, hedge funds and corporations.

Tim actively trades his own funds across equities, fixed income, commodities & foreign exchange. Building on the disciplines imparted by the classics, he uses only technical analysis, with a variety of methods. He will focus on his use of various DeMark Indicators: TD Setup, Sequential, Combo, Moving Average 1, and how he combines these indicators. He aims to provide examples from a range of markets.
