London EC2N 1EX**

TUESDAY 11th November 2008

6.00 PM Monthly Meeting

TUESDAY 9th December 2008

6.00 PM Monthly Meeting & Christmas Party

October Monthly Meeting

Speaker: Marc Rivalland

Swing charts and the test of time

Marc has been the charting columnist for Britain's leading financial weekly, *Investor's Chronicle* for the past 7 years. He is also the author of a book on swing trading. He remains a practising barrister.

Marc's book on swing trading is devoted mainly to the use of point & figure charts and swing charts. Marc has introduced a subset of rules which make pioneering alterations to the swing charts proposed by WD Gann. The modifications are intended to improve risk/reward for traders and investors but also to make trend definition more accurate. In this talk Marc examines how swing charts have stood the test of time since his last talk to the Society in May 2004.

Chairman's Notices

Will members please remember that, the **British Bankers' Association**, Pinner's Hall, will host our talks for the balance of 2008, the second **TUESDAYS** of the month, 14th Oct, 11th Nov and 9th Dec.

It would be most helpful if members could continue to make a special effort to be early. Although our policy remains "turn up and go" for members at normal meetings, and the Society's security arrangements passed muster with BBA on the 10th September, we must remain vigilant and endeavour to start on time. Also, please can members ensure they bring up-to-date membership cards. For those members not familiar with that part of the City, Pinner's Hall is next door to Corney & Barrow in Old Broad St.

A map is available on the STA website.
